The Czechoslovakian Republic consists of Bohemia, Moravia and Silesia, Slovakia and Ruthenia (Carpatho-Ukraine). In March 1939, a German protectorate was established over Bohemia and Moravia, as well as over Slovakia which had meanwhile declared its independence. Ruthenia was incorporated in the territory of Hungary. These territories were returned to the Czechoslovak Republic in 1945, except for Ruthenia, which was ceded to Russia. Czechoslovakia became a federal state on Jan. 2, 1969. On Jan. 1, 1993 Czechoslovakia separated into Slovakia and the Czech Republic. See Volume 5 for the stamps of Slovakia.

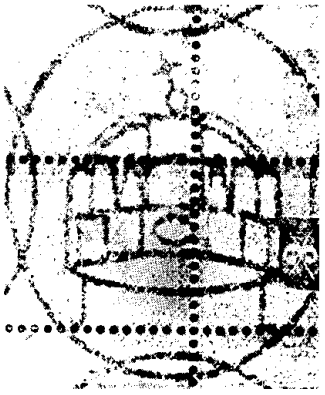
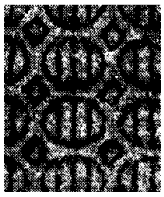
Wmk. 107 — Linden Leaves (Vertical)



Wmk. 135 — Crown in Oval or Circle, Sideways

Wmk. 136

Wmk. 136a



Wmk. 341 — Striped Ovals

Stamps of Austria overprinted "Ceskoslovenska Republika," lion and "Cesko Slovensky Stat," "Provisorni Ceskoslovenska Vlada" and Arms, and "Ceskoslovenska Statni Posta" and Arms were made privately. A few of them were passed through the post but all have been pronounced unofficial and unauthorized by the Postmaster General.

During the occupation of part of Northern Hungary by the Czechoslovak forces, stamps of Hungary were overprinted "Cesko Slovenska Posta," "Ceskoslovenska Statni Posta" and Arms, and "Slovenska Posta" and Arms. These stamps were never officially issued though copies have passed the post.

Normal Frame

Inverted Frame

The arabesques in the corners have a main stem and a branch. When the frame is in normal position, in the upper left corner the branch leaves the main stem half way between two little leaflets. In the lower right corner the branch starts at the foot of the second leaflet. When the frame is inverted the corner designs are, of course, transposed.

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 297 in the regular postage section, Scott B15 in the semi-postal section, and Scott Q28 in the parcel post section.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction. Very fine examples of Nos. 9-37 and O1-O9 will have perforations clear of the framelines but with the design noticeably off center. Well centered stamps are quite scarce and will command substantial premiums.

NORMAL FRAME

INVERTED FRAME

The arabesques in the corners have a main stem and a branch. When the frame is in normal position, in the upper left corner the branch leaves the main stem half way between two little leaflets. In the lower right corner the branch starts at the foot of the second leaflet. When the frame is inverted the corner designs are, of course, transposed.

Letter paper embossed with arms of Ecuador was used in printing a number of sheets of Nos. 2, 4-6.

Papermakers' watermarks are known on No. 2 ("Bath" and crown) and No. 4 ("Rolland Freres").

On the 4r the oval holding the coat of arms is usually 13½-14mm wide, but on about one-fifth of the stamps in the sheet it is 15-15½mm wide, almost a circle.

The 2r, 8r and 12r, type A1, are bogus.

Proofs of the ½r, type A1, are known in black and green.

An essay of type A2 shows the condor's head facing right.

In July, 1902, following the theft of a quantity of stamps during a fire at Guayaquil, the Government authorized the governors of the provinces to handstamp their stocks. Many varieties of these handstamps exist.

Other control marks were used in 1907.

A set of 20 imperforate items in the above Roosevelt design, some overprinted with the initials of various government ministries, was released in 1949. Later that year a set of 8 miniature sheets, bearing the same design plus a marginal inscription, "Presidencia (or Vicepresidencia) de la Republica," and a frame-line were released. In the editors' opinion, information justifying the listing of these issues has not been received.

MILITARY STAMPS

The "British Forces" and "Army post" stamps were special issues provided at a reduced rate for the purchase and use by the British military forces in Egypt and their families for ordinary letters sent to Great Britain and Ireland by a concessionary arrangement made with the Egyptian government. From Nov. 1, 1932 to Feb. 29, 1936, in order to take advantage of the concessionary rate, it was mandatory to use #M1-M11 by affixing them to the backs of envelopes. An "Egypt Postage Prepaid" handstamp was applied to the face of the envelopes. Envelopes bearing these stamps were to be posted only at British military post boxes. Envelopes bearing the 1936-39 "Army Post" stamps (#M12-M15, issued by the Egyptian Postal Administration), also were sold at the concessionary rate and also were to be posted only at British military post boxes. The "Army Post" stamps were withdrawn in 1941, but the concession continued without the use of special stamps. The concession was finally canceled in 1951.

Imperf examples of Nos. M1-M4, M6, M9 (without overprint) and M10 are proofs.

EPIRUS

i-'pī-rəs

LOCATION — Southeastern Europe comprising parts of Greece and Albania.

This territory formerly belonged to Turkey but is now divided between Greece and Albania. The northern part of the Greek section, now a part of Albania, set up a provisional government during 1912-13 and issued postage stamps but it collapsed in 1916, following Greek occupation. The name "Epirus" is taken from the Greek word meaning "Mainland."

Second Colonial Arts Exhibition, Naples. See Nos. C1-C6.

Between 1981 and 1986 unofficial labels appeared showing such non-Eritrean subjects as the British royal weddings, Queen Mother, Queen's birthday, and the Duke & Duchess of York. These labels are not listed.

In 1978, two sets of stamps were issued for use within liberated areas of Eritrea and to publicize the liberation effort. A May 26 set of 5c, 10c, 80c and 1b commemorated the 8th anniv. of the Eritrean People's Liberation Front (EPLF). An August 1 set of 80c, 1b, 1.50b featured the Future of Eritrea theme. A September 1, 1991 set of 5c, 15c and 20c was issued with a Freedom Fighter design in orange and black almost identical to design A24. Although the 80c from the 1st 1978 issue was available at the Asmara post office in late 1992 and early 1993, there is no evidence that any of these stamps were available at the time of independence. Thus these stamps are more properly considered locals and provisionals.

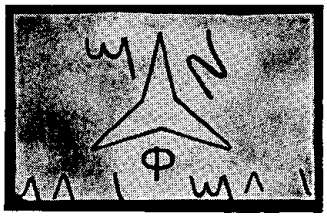
Watermarks

Wmk. 140 — Crown



Wmk. 282 — Ethiopian Star and Amharic Characters, Multiple

Excellent forgeries of Nos. 1-86 exist.

Very Fine examples of Nos. 1-86 and J1-J42 will have perforations touching the design on one or more sides due to the narrow spacing of the stamps on the plates and imperfect perforating methods. Stamps with margins clear on all sides are scarce and command high premiums.

On March 9, 1894 Menelik II awarded Alfred Ilg a concession to develop a railway, including postal service. Ilg's stamps, Nos. 1-79, were valid locally and to Djibouti. Mail to other countries had to bear stamps of Obock, Somali Coast, etc.

Ethiopia joined the UPU Nov. 1, 1908.

135	A18	4g on 4t brn & lil rose	3.00	3.00

Nos. 135-154

The Amharic surcharge indicates the new value and, therefore, varies on Nos. 135-154. There are numerous defective letters and figures, several types of the "2" of "½," the errors "guerhce," "gnerche," etc.

Many varieties of surcharge, such as double, inverted, lines transposed or omitted, and inverted "2" in "½," exist.

There are many irregularly produced settings in imitation of Nos. 136-154 which differ slightly from the originals. These may be essays or proofs.
